SMartLuoPan®

INTRODUCTION

The original physical SMartLuoPan® emerged from my years of frustration, as I sought specific information not available on any of the LuoPans I owned.

Constantly switching between LuoPans and referencing multiple charts was cumbersome, even though I possessed some of the finest ones. In my exasperation, I decided to create my own solution.

The SMartLuoPan® boasts an array of rings, featuring some common in traditional LuoPans and many unique ones not found elsewhere. We removed unnecessary traditional rings and added those we believed were more essential. The result is the ideal tool for conducting Feng Shui assessments.

A setback occurred when my phone malfunctioned, and I had to transition to a new device. To my dismay, the Digital LuoPan I had on my old phone couldn't be transferred. Since I heavily relied on my digital LuoPan daily, I felt compelled to create a new Digital LuoPan, utilizing the materials from the SMartLuoPan®.

This new digital version was an improvement over the previous one on my phone, which was entirely in Chinese and contained many irrelevant rings.

This gave rise to the Digital SMartLuoPan®, an indispensable tool for Feng Shui practitioners, myself included. I've been using it during the testing phase for a week, and, without wanting to sound boastful (though I might be), it is undeniably exceptional.

For beginners, this e-manual can serve as a shortcut to conducting a valid Feng Shui Assessment. The following pages will guide you through its various applications, contributing to all aspects of Feng Shui, including 8 Mansions, Flying Stars, Xuan Kong Da Gua. Some rings are color-coded, offering additional layers of information once you become familiar with them. Hold on and enjoy the experience!

Given that phone screens are smaller than an 11-inch LuoPan, we've organized the rings by use. You can choose from the original Gold SMartLuoPan® screen, a transparent version for use in GPS mode on your property, the Xuan Kong Da Gua Version, or the Flying Stars version. We've also included the Annual 2023 and 2024 versions to simplify your life.

As this app operates on a subscription basis, we will provide annual updates, ensuring you always have the latest LuoPan for the current year. We sincerely hope that the SMartLuoPan® brings you joy, prosperity, and becomes your trusted companion, just as it has for me.

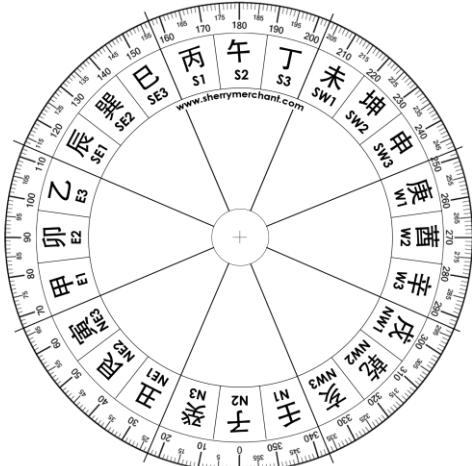

The opening screen has 6 versions of interface for you to choose from, so click on the one you like to proceed using the **Digital SMartLuoPan®**.

Find the description for each of the 6 screens in the subsequent pages.

XUAN KONG DA GUA

DESCRIPTION

If you a Xuan Kong Da Gua exponent, you will find all the information that you need here, including the color coded hexagrams as per the Xuan Kong Da Gua KUN REN YI formula. For all other formulas, ignore the colour coding of the hexagrams.

Here you find

1. The degrees,
2. The Out of Gua Ring,
3. The HeTu Element of the Hexagram,
4. The Hexagram Number in English (king Wens numbering system)
5. The Hexagram name in English
6. The hexagram Image
7. The HeTu number & the Period Luck number
8. The element of the Jia Zi (Na Yin) or Sound of the elements
9. The 60 Jia Zi
- 10.The 24 mountains in Chinese, PinYin & English
- 11.Colour coding for each of the 24 mountains as per the element of their frame
- 12.The 8 Trigrams

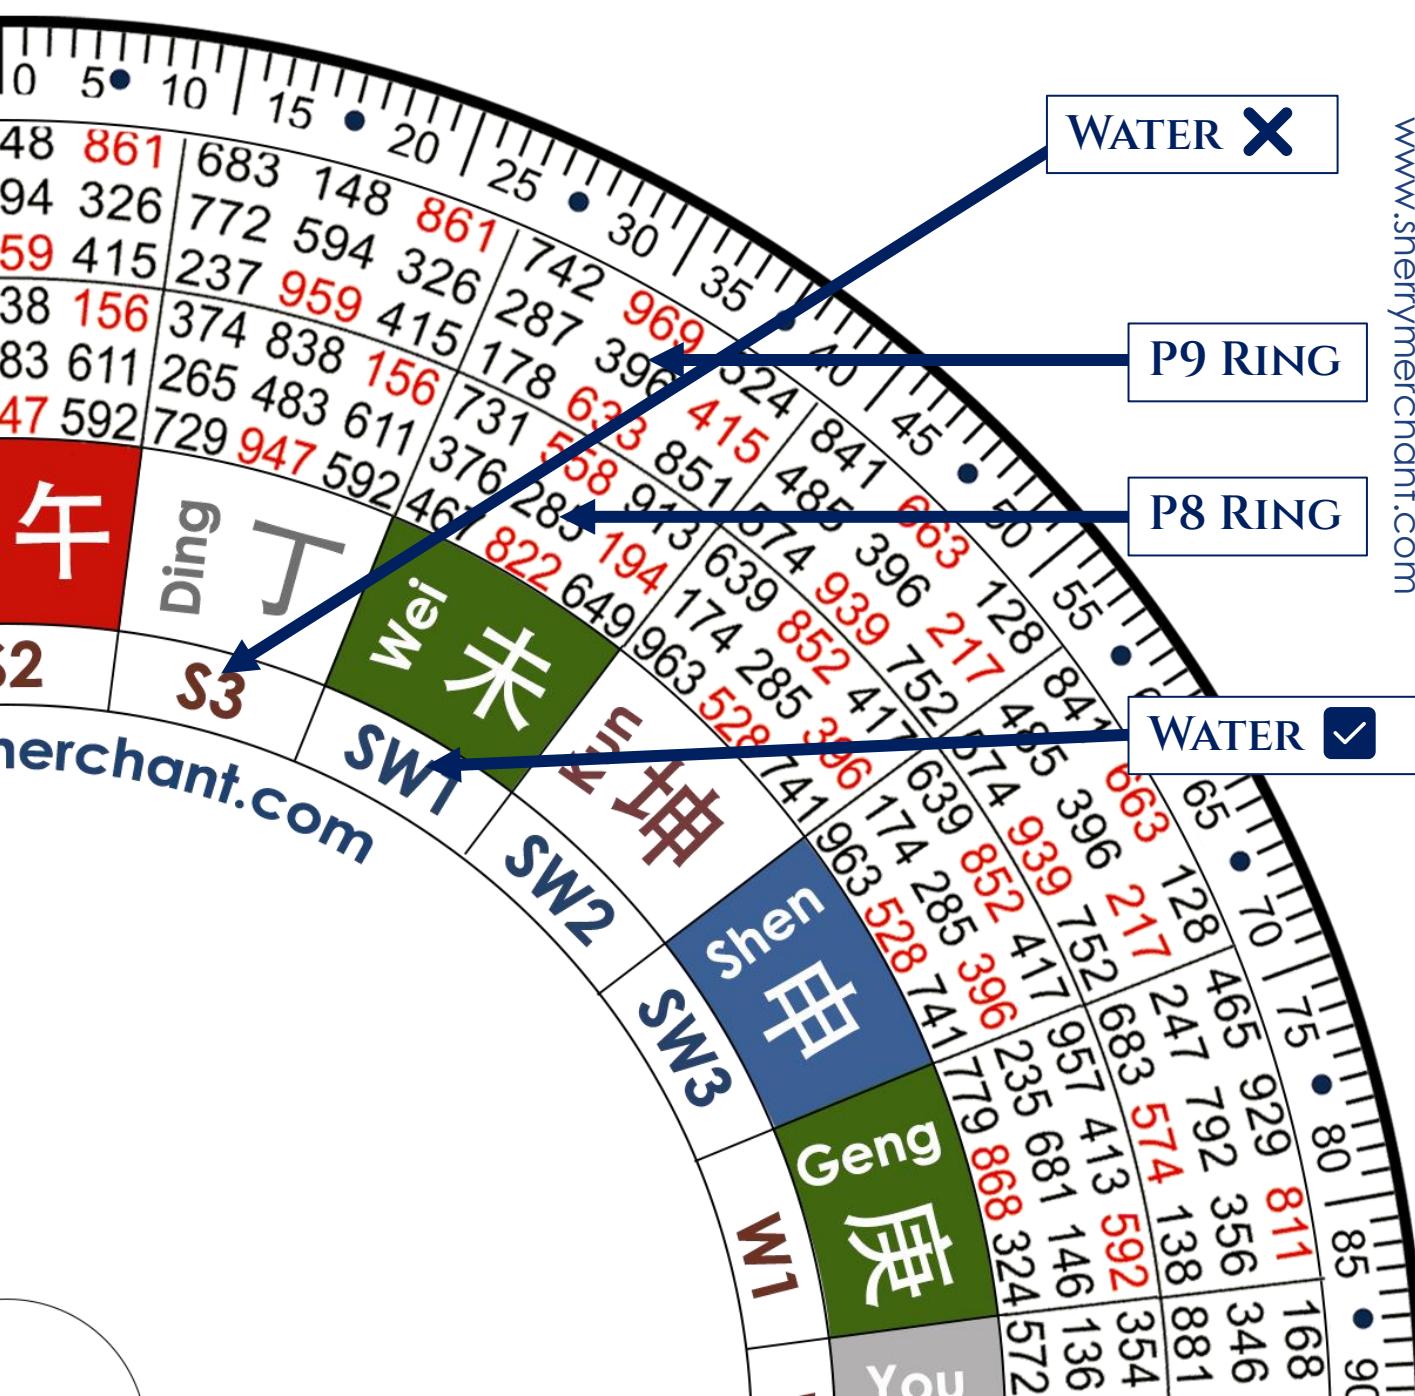

SHERRY MERCHANTS ENGLISH SMARTLUOPAN® PERIOD 8 & PERIOD 9 FLYING STAR LUOPAN

DESCRIPTION

If you want to compare the period 8 & Period 9 Flying Stars, use this template. The flying stars for both periods are arranged side by side and aligned to the facing direction so that the combination you see ahead is the direction where you are pointing towards.

Further, the Red combinations are the Sheng & Wang, so you know immediately which stars are useful and which are not. On a deeper level, the directions written in Blue are where you can see water in P9 (indirect spirit) just in case you forget.

Read more about Sheng & Wang in the e-manual.
